Judge James P. Gray  
City: Costa Mesa  
United States Senate  
<http://www.judgejimgray4senate.com/>

*"The so-called Patriot Act is being used in ways totally unrelated to terrorism, but which infringe upon our civil liberties like nothing else in our history. It appears that the people in government behind these acts are working to destroy our civil liberties in order to save them. I believe that if our Founding Fathers were with us today, they would be outraged by this conduct, and would probably take up arms against it."*

Brian Holtz  
City: San Carlos  
Congressional District 14  
<http://marketliberal.org/>

*"If you like the way Democrats defend civil liberties but dislike how they distort free markets to favor special interests, you're a Market Liberal. If you like the way Republicans emphasize individual responsibility but dislike how they try to legislate personal morality, you're a Market Liberal."*

Allen Rice  
City: San Jose  
Senate District 11  
<http://www.rice4sd11.org/>

*"I start with the premise that individual freedom is the fundamental value that supports all social relations and all economic exchanges. Support of individual freedom should be the primary goal of the political system. Look around at the current political condition. Of the State of California. Of the Nation. Evidence in abundance that the politicians are trying to do too much and are simply not able to handle it."*

Michael Laursen  
City: Mountain View  
Senate District 13  
<http://www.votelaursen.org/>

*"I am not a career politician. I am a high-tech professional just like many of you. I chose to make my home in Silicon Valley because it offers a combination of environment, diversity, and intelligent, creative people that can't be matched. I want to see my community and California prosper."*

Zander Collier  
City: San Jose  
Assembly District 24  
<http://www.electcollier.org/>

*"I believe in Self-Ownership, Freedom of Speech, Freedom of Assembly, and Protection of Privacy. Government should have its hands off of our bodies and out of our pockets. The major parties have badly and demonstrably mismanaged both the state and the nation. If you don't want business as usual, don't vote business as usual. Let's work on a new vision and a better path for California."*
